### 6/28/2018

With the July 4 holiday, I anticipate that many of you will not be available for the July 5 EPIC workgroup call. Since there is not much new information, I'm cancelling the call. Recent updates are:

- Digitization of the reports continues. Digitized reports are being downloaded to an intranet site at <http://epicarchive.epa.gov/documents>. The user interface is minimal for now, but the digitized documents are accessible at the site. "Dashboard" and "Documents" in the upper left corner toggles between two views.
- Arrangements are being made to ship the Archive film and CDs from Las Vegas to the RTP, NC, warehouse for interim storage pending an agreement amenable to EPA, NARA, and USGS for disposition. Although not ideal, the warehouse is conditioned and is best option available at this time.

Don't hesitate to contact me ([struble.ed@epa.gov](mailto:struble.ed@epa.gov)) if you have questions.
